Report No. [REDACTED] Research Program and Test Facilities  
at Moscow Aviation Institute/Absence of Missile Research

1. The following additional information regarding the compressor mentioned in paragraph 13 of the subject report is requested:

- a. Overall dimensions of the compressor.
- b. Type of material of construction used for casing, rotor, and blades.
- c. Design capacity of the compressor.
- d. Type of compressor; e.g., axial flow. If axial flow, are stator blades adjustable for varying the volume? Length of rotor and method of manufacture; e.g., built-up of discs. Length of blades.
- e. Lubricant used for compressor bearing; e.g., petroleum-based, air, etc.
- f. Kilowatt rating of electric motor.
- g. Manufacturer of the compressor.

2. The security classification of the requirements is CONFIDENTIAL when they are not associated with the memorandum.
